

# CARDEXCHANGE®

# PRODUCER

Available in four local license editions, CardExchange® fits a broad range of user needs, facilities, and budgets.

Business and Enterprise editions are also available as network licenses to support centralized data and license management.

Easy-to-use card design wizard and database setup gets your card program up and badging in minutes.

- ✓ Automatic Face Crop and Face Recognition
- ✓ Advanced User and Group Permissions

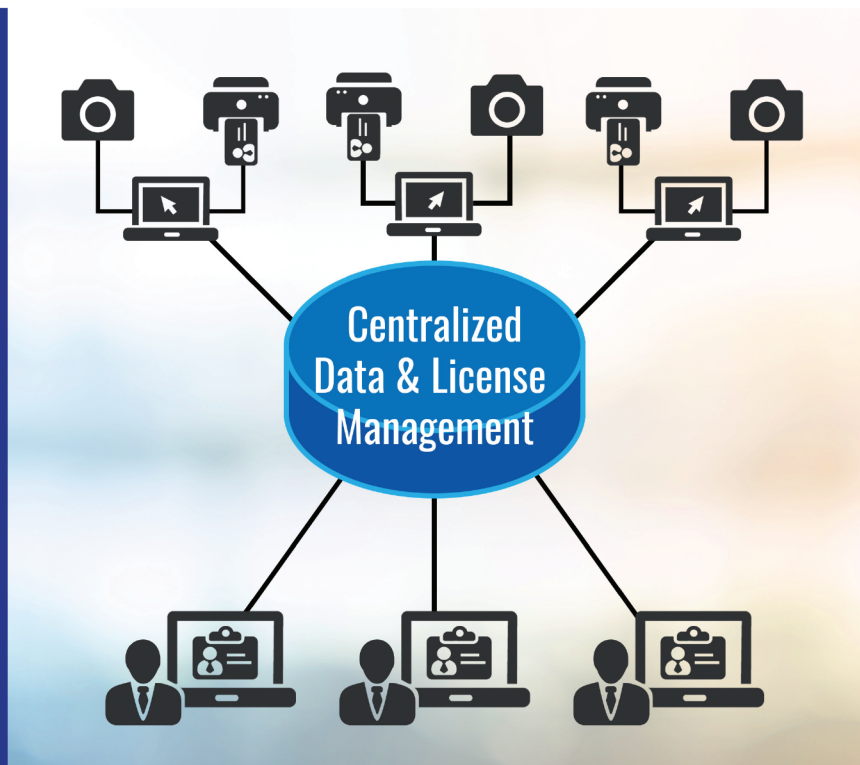

- ✓ Contact and Contactless Smart Card Encoding
- ✓ 1D and 2D Barcode Support
- ✓ Biometric Scanning Support

# NETWORK LICENSE

CardExchange® Business and Enterprise Editions offer centralized data and license management. Store card layouts, database connections, printers settings, user profiles and more in a single location that can be shared with all users. Efficient, simple and adaptable for every user need, each user interface can be customized based on individual user and/or group profiles using permissions. Print from a print farm or a central location. Large print jobs with multiple printers can be managed easily with CardExchange® Producer's load balancing Print Dispatcher.

## BENEFITS

- ✓ Centralized Data and License Management
- ✓ Concurrent Users
- ✓ Shared Data Between Users
- ✓ Citrix Support
- ✓ No Dedicated Server Needed
- ✓ AES 128 Bit Encrypted Data
