

CARDEXCHANGE®

VISITOR

Available in four editions, CardExchange® Visitor Enter, Standard, Business, and KIOSK for maximum control of traffic entering your building. In just a few steps you can register, authorize, manage, and track your visitors to increase building and employee safety. Monitor visitor data, create check-in policies, and increase security with a scalable and secure solution.

CardExchange® Visitor has an intuitive interface with a Microsoft® look and feel that lets users navigate the software with ease. Reduce visitor back-log and monitor various types of traffic by categorizing visitors. Manage events, create watch lists, and ease lobby congestion while ensuring visitors are processed quickly and efficiently.
