

COVID-19 Emergency Response Products

Identify, Communicate, & Contain Effectively with Solutions

Legend ID aims to support the Healthcare community as COVID-19 causes a rapid increase in patients needing medical care. Our products identify patients and visitors and assist in infection control, special precautions, and the identification of specimens and waste.

- Patient & Visitor Identification
- Contact & Droplet Precautions Labels
- Specimen Labeling
- Specimen Transport Labels & Bags
- Waste Disposal Bags
- Cassette Covers & Personal Belonging Bags

Custom solutions are available to meet your specific protocol requirements.

Legend ID can customize any labels, tapes, bags, or wristbands to meet your specific needs.

PATIENT SCREENING & TRIAGE

Legend ID offers a variety of colored bands, wraps and snaps that can be customized for screening and triage of patients. Customize the text on the bands and wraps to meet your organization's needs.

SELF-EXPIRING VISITOR BADGES

Visitor Badge Log Books

Easy, cost-effective solution for recording and badging your visitors. The TEMPbadge™ Visitor Badge Log Book is visitor management, simplified! This innovative sign-in system allows you to keep a record of your visitors and issue them a visitor badge all in one easy step!

Confidential Visitor Documentation

When a badge is filled out, a duplicate copy is recorded (which cannot be seen by future visitors).

Choose from Self-Expiring or Non-Expiring Visitor Badges

Easy-to-Use, Low-Cost Solution

This simple sign-in system can serve as a complete Visitor Management solution without any extra equipment or software!

STOCK SELF-EXPIRING VISITOR BADGE LOG BOOK SPECIFICATIONS

ITEM #	EXPIRING TIME	DESCRIPTION
05741	1 Day (15 Hrs)	Stock Visitor Badge Log Book 40 pages x 12 badges per page = 480 badges total (plus duplicate copies of each badge for your records)
MOQ: 1 book. Shipping Weight: 1 lb. per book (05721); 2 lb. per book (05741).		

For added security, the badge will display a red-colored "VOID" after the visitor has been on site for the allotted time.

PRECAUTION LABELS

Contact Precautions

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

1. **Private Room.** When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection.
2. **Wear gloves when entering room.** Change gloves after contact with infective material. Remove gloves before leaving the patient's room.
3. **WASH YOUR HANDS** immediately with antimicrobial agent before leaving the patient's room. After glove removal and handwashing, ensure that hands do not touch potentially contaminated environmental surfaces or items in the patient's room to avoid transfer of microorganism to other patients or environments.
4. **Wear a gown** if you anticipate that your clothes will have substantial contact with the patient, environmental surfaces, or items in the patient's room or if the patient has any of the following:
 - Incontinent • Diarrhea • Colostomy • Ileostomy
 - Wound Drainage not contained by a dressing
5. Remove gown before leaving patient's environment.
6. Limit the movement/transport of patients from room to essential purposes only. During transport, ensure that all precautions are maintained at all times.
7. When possible, dedicate the use of noncritical patient care equipment for each patient.

Precauciones de Contacto

(además de Precauciones Normales)

Visitantes — Favor de Reportarse a la Estación de Enfermeras Antes de Entrar al Cuarto

1. **Cuarto Privado.** Cuando el cuarto privado no esté disponible, se comparte el cuarto con paciente(s) que tenga(n) una infección activa con el mismo microorganismo pero sin cualquier otra infección.
2. **Usar guantes al entrar al cuarto.** Cambiarse los guantes después de tener contacto con sustancias infecciosas. Quitese los guantes antes de salir del cuarto del paciente.
3. **LAVARSE LAS MANOS** inmediatamente con detergente antimicrobico antes de salir del cuarto del paciente. Después de quitarse los guantes y de lavarse las manos, asegurese de que sus manos no toquen superficies o artículos potencialmente contaminados dentro del cuarto del paciente para evitar transmitir el microorganismo a otros pacientes o medio ambiente.
4. Use una bata si anticipa que su ropa tendrá contacto con el paciente, superficies del ambiente, o artículos en el cuarto del paciente, o si el paciente tiene cualquiera de lo siguiente:
 - Incontinencia • Diarrea • Colostomía • Ileostomía
 - Drenaje de herida no cubierta por un vendaje
5. Quitarse la bata antes de salir del cuarto del paciente.
6. Limitar el movimiento/transporte de pacientes del cuarto solo para propósitos esenciales. Durante el transporte, asegurarse que todas las precauciones sean obedecidas en todo momento.
7. Cuando posible, asigna equipo individual para cada paciente.

CONTACT PRECAUTIONS

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

1. **Private Room** – when private rooms are in short supply, prioritize patients with conditions that may facilitate transmission and cohort with patient(s) who has active infection with the same microorganism but with no other infection. Maintain spatial separation of at least 3 feet from other patients and visitors and draw privacy curtains if cohorting or private room is not available.
2. **Gloves and Gown** – wear gloves and gown when entering room or cubicle. Remove gown and gloves before leaving patient's room and ensure that clothing and skin do not contact potentially contaminated environmental surfaces that could result in possible transfer of microorganisms.
3. **Wash Hands** – with warm water and antimicrobial agent immediately after glove and gown removal and before leaving patient's room.
4. **Transport** – limit the movement and transport of patients outside the room to medically necessary purposes only. If transport is essential, ensure infected areas of the patient's body are contained and covered.
5. **Equipment** – use disposable non-critical patient-care equipment (e.g. blood pressure cuffs) or implement patient-dedicated use of such equipment. If use of common equipment is unavoidable, clean and disinfect equipment between patients.
6. **Environmental Measures** – Ensure that rooms of infected patients are prioritized for frequent cleaning and disinfection (e.g. at least once daily) with a focus on frequently touched surfaces (e.g. bed rails, overbed table, doorknobs) and equipment in the immediate vicinity of the patient.

CONTACT PRECAUTIONS

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

1. **Private Room** – When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection.
2. **Gloves** – wear gloves when entering room. Change gloves after contact with infective material. Remove gloves before leaving the patient's room.
3. **Wash Hands** – with antimicrobial agent immediately after glove removal and before leaving patient's room.
4. **Gown** – wear when entering room to protect clothes from items in the patient's room or if the patient has any of the following: • Incontinent • Diarrhea • Colostomy • Ileostomy • Wound Drainage not contained by a dressing
Remove gown before leaving the patient's environment.
5. **Transport** – Limit the movement/transport of patients from room to essential purposes only. During transport, ensure that all precautions are maintained at all times.
6. When possible, dedicate the use of noncritical patient care equipment to a single patient. If common equipment is used, clean and disinfect between patients.

For our complete selection of Infection Control Labels & Products, visit www.pdchealthcare.com

These steps are recommended by the CDC to reduce the risk of transferring microorganisms through direct contact with a patient. The signs are placed outside the patient's door to warn visitors and staff of necessary steps to reduce the spread of disease.

PRECAUTION LABELS

Droplet Precautions

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

- 1. Private Room.** When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection. Maintain spatial separation of at least 3 feet from other patients and visitors if cohorting or private room is not available.
- 2. Mask** required when working within 3 feet of patient (or when entering room). Check your hospital's policy.
- 3. Limit the movement/transport of patients** from room to essential purposes only. During transport, **minimize the spread of droplets by placing a surgical mask on the patient, if possible.**

Precauciones de Contaminación por Gotas

(además de Precauciones Normales)

Visitantes — Favor de Reportarse a la Estación de Enfermeras Antes de Entrar al Cuarto.

- 1. Cuarto Privado.** Cuando el cuarto privado no esté disponible, se comparte el cuarto con paciente(s) que tenga(n) una infección activa con el mismo microorganismo pero sin cualquier otra infección. Mantener una distancia de por lo menos 3 pies de otros pacientes o visitantes si comparten un solo cuarto, o cuando un cuarto privado no está disponible.
- 2. Máscara** requerida cuando esté trabajando dentro de 3 pies del paciente (o al entrar al cuarto). Verifique los reglamentos del hospital.
- 3. Limitar el movimiento/transporte de pacientes** del cuarto solo para propósitos esenciales. Durante el transporte, **minimizar la diseminación de gotas poniendo una mascarilla quirúrgica al paciente, si es posible.**
